

# PRE REQUISITES – IBM CLOUD SERVICES

<b>TEAM ID</b>	PNT2022TMID23838
<b>Project Name</b>	REAL-TIME RIVER WATER QUALITY MONTORING AND CONTROL SYSTEM
<b>Leader Name</b>	BHUVANESHWARI SRIDHAR S
<b>Team Members Name</b>	BAVANI P DIVEDHA V KAVIYARASI P

The screenshot displays the IBM Cloud Dashboard in a web browser. The browser's address bar shows 'cloud.ibm.com'. The dashboard header includes the 'IBM Cloud' logo, a search bar, and navigation links for 'Catalog', 'Manage', and the user's name 'BHUVANESHWARI SRI...'. The main content area is titled 'Dashboard' and features a 'For you' section with six recommended actions: 'Build' (Explore IBM Cloud with this selection of easy starter tutorials and services), 'Set up your IBM Cloud account' (Learn how to set up your IBM Cloud account, manage your account settings, organize resources, and control access to those resources), 'Build a web app with Watson Speech to Text' (Deploy a conversational interface compatible with any application, device, or channel), 'Get Started with Watson Studio' (Get started with using AI and Cloud Object Storage in 15 minutes), 'Build a Virtual Private Cloud (VPC)' (Upgrade to a paid account to create your own protected space in the IBM Cloud), and 'Create an OpenShift cluster' (Deploy apps on highly available clusters with Red Hat OpenShift on IBM Cloud). Each action card includes a 'Getting started' button and a time estimate. Below the 'For you' section, there are four more cards: 'News' (All About IBM Storage's Price and Supply Guarantee, IBM Tech Now: November 7, 2022, Unified Key Orchestrator Now Supports Easy Multicloud Key Management for Google KMS), 'Recent support cases', 'Planned maintenance', and 'IBM Cloud status'. The bottom of the dashboard shows a Windows taskbar with various application icons and a system tray with the date '10-11-2022' and time '12:12'.

The screenshot displays the IBM Cloud 'Resource list' page. At the top, there's a navigation bar with a search bar and a 'Skip to content' link. Below this, the 'Resource list' title is followed by a 'Create resource' button. The main content area features a table with the following columns: Name, Group, Location, Product, Status, and Tags. The 'Name' column is expanded, revealing a list of resource categories, each with a count in parentheses: Compute (0), Containers (0), Networking (0), Storage (0), AI / Machine Learning (0), Analytics (0), Blockchain (0), Databases (0), Developer tools (0), Logging and monitoring (0), and Migration (0). The page also includes a sidebar with navigation icons and a footer with the URL 'https://cloud.ibm.com/resources#main-content'.
