Node-RED interface showing a flow diagram and the 'Edit button node' configuration panel.

**Flow Diagram:** The flow starts with a 'Light off' node, followed by a 'Light on' node. A 'get sensor' node is connected to a 'func' node, which then connects to a 'msg payload' node.

**Edit button node Properties:**

- Group: [control] control
- Size: auto
- Icon: optional icon
- Label: Light on
- Tooltip: optional tooltip

  - Topic: msg, topic
- ➔ If msg arrives on input, emulate a button click: ☐
- ☐ Enabled

**Debug Console:** Shows a series of messages from the 'node: Message' type, indicating the flow's execution.

Dashboard interface showing a table of recent events and a status bar.

**Recent Events:**
